

**OX BILE BACTERIOLOGICAL**
**CAT. No. 184 MI-AC-901 Version 12 Date: 20/07/2023 According to NOM-018-STPS-2015:**
**SECTION I. MANUFACTURER AND SUBSTANCE IDENTIFICATION**

<b>Substance name:</b> Ox Bile Bacteriological.	<b>Manufacturer name:</b> Biotecnica Internacional S.A. de C.V.	<b>Emergency telephone:</b> 951 512 80 04
<b>Other ways of identification:</b> Ox Bile Extract, Bile Extract.	<b>Address:</b> Artículo 123 no. 104, Col. Granjas y Huertos Brenamiel, San Jacinto Amilpas, Oax. Oaxaca, México. C.P. 68285	<b>Technical telephone:</b> 951 512 62 55 951 512 80 04
<b>Use and restriction:</b> Use in culture media, fermentation processes, cell cultures and other biotechnological applications.	<b>Issued Date:</b> 14/08/2008	<b>Updated:</b> 20/07/2023

**SECTION II. HAZARD IDENTIFICATION**
**Classification of the substance or mixture:**

This substance is not classified according to the GHS. It is not classified as hazardous according to ECHA in the REACH registers (EC Regulation No. 1907/2006). No hazardous ingredients according to OSHA 29 CFR 1910.1200.

**Signal word, hazards statement:**

Pictograms.

Indication of physical danger (Notifications to the CLP in ECHA)

Pictogram	Signal Word
	Attention

Code	Health hazard statements	Hazard class	Danger category
H302	Harmful if swallowed	Acute toxicity due to ingestion	4
H315	Causes skin irritation	Skin irritation	2
H317	May cause an allergic skin reaction	Cutaneous sensitivity	1, 1A, 1B
H319	Causes serious eye irritation	Eye irritation	2A
H335	It can irritate the respiratory tract	Specific toxicity of white organs; irritation of the respiratory tract	3

**OX BILE BACTERIOLOGICAL**

CAT. No. 184 MI-AC-901 Version 12 Date: 20/07/2023 According to NOM-018-STPS-2015:

**Precautionary Statement:**

**Prevention: P201** Obtain special instructions before use.

**Prevention: P280** Wear protective gloves/protective clothing/eye protection/face protection.

**Response: P301 + P312** IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

**Response: P302 + P352** IF ON SKIN: Wash with plenty of soap and water.

**Response: P304 + P312** IF INHALED, call a POISON CENTER or doctor/physician if you feel unwell.

**Response: P305 + P351 + P338** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**Storage: P402 + P404 + P235** Store in a dry and cool place. Store in a closed container.

**Disposal: P501** Dispose the content or container in accordance with local/regional/national/international regulations.

**Other hazards that do not contribute to the classification:**

Undetermined.

**SECTION III. COMPOSITION/INFORMATION ABOUT COMPONENTS**

**Substance name:** Ox Bile Bacteriological.

**UN number:** Not applicable.

This product does not contain hazardous ingredients.

**SECTION IV. FIRST AID****First aid procedures:**

**Inhalation:** Provide fresh air.

**In case of contact with eyes:** Flush with water 2 or 3 minutes.

**In case of contact with skin:** Wash immediately with soap and water, rinsing well.

**Ingestion:** If swallowed, rinse mouth with water. Do not induce vomiting. Seek medical advice if necessary.

**Symptoms and health hazards:**

**Acute.**

Inhalation may cause respiratory irritation.

**Chronic.**

Prolonged contact with dust might cause irritation to respiratory tract, allergic or asthmatic reaction.

**Indication of any immediate medical attention and special treatment needed:**

If you have any symptoms described above, seek medical advice (show the label if possible).

## OX BILE BACTERIOLOGICAL

CAT. No. 184 MI-AC-901 Version 12 Date: 20/07/2023 According to NOM-018-STPS-2015:

## SECTION V. FIRE MEASURES

**Extinguishing medias:**

Water, appropriate foam, carbon dioxide (CO<sub>2</sub>), dry chemical powder.

**Special hazards arising from the substance:**

Any organic powder can be potentially explosive if dispersed certain concentrations. Concentrations have not been determined for these procedures.

**Special fire-fighting procedures:**

Data not available.

**Hazardous decomposition products:**

Carbon monoxide. Carbon dioxide.

## SECTION VI. MEASURES TO BE TAKEN IN CASE OF SPILL OR ACCIDENTAL LEAKAGE

**Personal precautions:**

Proper precautions must be taken to minimize the direct contact with skin, eyes and respiratory tract.

**Protective equipment:**

See section VIII.

**Emergency procedures:**

Evacuate unnecessary personnel.

**Environmental precautions:**

Do not let the product enter sewage system.

**Cleaning procedures:**

Sweep the product and put it in a bag. Avoid to the dust increase, ventilate the area and wash the place of spill after to collect all the product. Also is recommended used a vacuum system.

## SECTION VII. HANDLING AND STORAGE

**Cautions for safe handling:**

Do not breathe dust, avoid contact with skin and eyes. Wash your hands and exposed areas with mild soap and water after using the material.

Provide good ventilation in the handling area to prevent dust buildup.

**Store conditions:**

Store in a clean, cool, and dry place.

**Incompatibility:**

Keep away from oxidizing substances, heat, flame or sources of ignition.

## OX BILE BACTERIOLOGICAL

CAT. No. 184 MI-AC-901 Version 12 Date: 20/07/2023 According to NOM-018-STPS-2015:

## SECTION VIII. EXPOSURE MEASURES/PERSONAL PROTECTION

**Control parameters:**

The occupational exposure limits are not available.

**Technical controls:**

No additional data. See Section VII.

**Respiratory protection:**

Use industrial respirator that meets NIOSH N95 (US), type FFP1 (EN143), or equivalent under normal conditions of use.

**Protective gloves:**

Wear protective gloves that comply with European Union (EU) regulation 2016/425, standard EN374 or equivalent.

**Eye protection:**

Use safety glasses approved by ANSI Z87, EN166, or equivalent if a risk assessment considers it necessary.

**Protective clothes:**

Wear suitable protective clothing in accordance with good chemical hygiene practices.

## SECTION IX. PHYSICAL AND CHEMICAL DATA

**Appearance and odor:** Yellowish-green powder, pungent odor. Very hygroscopic.

**Relative density:** Not determined.

**pH:** 7.50 – 9.20

**Solubility in water:** 20 g/l

**Melting Point / Freezing Point:** Not determined.

**Partition coefficient n-octanol / water:** Not applicable.

**Initial point and boiling range:** Not determined.

**Spontaneous ignition temperature:** Not applicable.

**Flammability point:** Not determined.

**Decomposition temperature:** Not determined.

**Evaporation rate:** Not applicable

**Viscosity at 40 ° C (mm<sup>2</sup> / s):** Not applicable

**Flammability (solid, gas):** Not determined.

**Average molecular weight:** 117.00 Da.

**Vapor pressure (mmHg):** Not applicable.

**Explosive properties:** Not applicable.

**Vapor density (air = 1):** Not applicable.

**Loss in drying:** Maximum 6.00%.

## OX BILE BACTERIOLOGICAL

CAT. No. 184 MI-AC-901 Version 12 Date: 20/07/2023 According to NOM-018-STPS-2015:

## SECTION X. STABILITY AND REACTIVITY

**Reactivity:**

Not established.

**Chemical stability:**

Stable under recommended storage conditions.

**Possibility of hazardous reactions:**

Not established.

**Conditions to avoid:**

Direct sunlight, source of ignition. Avoid humid or very warm places.

**Incompatible materials:**

Strong acids. Strong bases.

**Hazardous decomposition products:**

Fumes. Carbon monoxide. Carbon dioxide.

## SECTION XI. TOXICOLOGICAL INFORMATION

**Signs and symptoms of exposure:**

May cause irritation to mucous membrane and upper respiratory tract. May cause skin and eye irritation. For acute and chronic exposures see section IV.

**Acute toxicity estimates:**

Hazard category 4 (harmful in case of ingestion, inhalation and in contact with skin).

**Specific toxicity in certain organs:**

Category of danger 3 (lung).

<b>Pathways of entry (See section II):</b>	<b>Skin:</b> Yes	
	<b>Eyes:</b> Yes	
	<b>Inhalation:</b> Yes	
	<b>Ingestion:</b> Yes	
<b>Carcinogenicity:</b> Not listed in the NTP report	<b>IARC monographs:</b> Not listed.	<b>OSHA 1910.1002:</b> Not listed.

**Interactive effects:** Data not available.

## OX BILE BACTERIOLOGICAL

CAT. No. 184 MI-AC-901 Version 12 Date: 20/07/2023 According to NOM-018-STPS-2015:

## SECTION XII. ECOTOXICOLOGICAL INFORMATION

**Toxicity:** This product is not hazardous to the environment according to US regulations.

**Persistence and Biodegradability:** Information not available.

**Bioaccumulation potential:** Information not available.

**Mobility on the ground:** Information not available.

**PBT and vPvB:** The substance does not meet the criteria to be identified as PBT substance or vPvB according to Annex XIII of the REACH regulation.

**Other adverse effects:** Has not been evaluated.

## SECTION XIII. INFORMATION RELATING TO THE DISPOSAL OF THE PRODUCTS

Contact a licensed professional waste disposal service to dispose of this material. Avoid release to the environment or enter the sewage system. Check all local environmental regulations, estate and federal. See section VIII.

## SECTION XIV. INFORMATION CONCERNING TRANSPORTATION

**UN Number:**

Not Applicable.

**Official Transport Designation of UN:**

Not Applicable.

**Hazards in transportation:**

Not Applicable.

**IATA:**

Non-Hazardous for Air Transportation.

**ADR/RID:**

Non-Hazardous for Road Transportation.

**IMDG:**

Non-Hazardous for Sea Transportation.

**Environmental Risks:**

Have not been thoroughly investigated, but currently none have been identified

**Special Precautions for Users:**

Not Classified.

**Transport in Bulk According to Annex II of Marpol 73/78 and the IBC Code:**

Not Classified.

CAT. No. 184 MI-AC-901 Version 12 Date: 20/07/2023 According to NOM-018-STPS-2015:

## SECTION XV. REGULATORY INFORMATION

Not applicable.

## SECTION XVI. OTHER INFORMATION

The information is considered correct but is not exhaustive and will be used only as guidance, which is based on the current knowledge of the chemical or mixture and is applicable to the appropriate safety precautions for the product.

**Abbreviations or acronyms:**

EC: European Inventory of Existing Chemical Substances.

UN Number: Number of four digits used to identify hazardous substances or materials.

NIOSH: National Institute of Occupational Safety and Health of the United States.

FFP1: Level of protection of a mask according to the European standard EN 14.

IN: European Standard.

ANSI: American National Standards Institute.

NTP: National Toxicology Program of the United States.

IARC: International Agency for Research on Cancer.

OSHA: Occupational Safety and Health Administration in the United States.

PBT: Persistent, Bioaccumulative and Toxic.

vPvB: Very persistent and very Bioaccumulable.

REACH: Registration, Evaluation, and Authorization and Restriction of Chemical substances of the European community.

IATA: International Air Transport Association.

ADR / RID: European Agreement on the International Carriage of Dangerous Goods by Road / European Agreement on the International Carriage of Dangerous Goods by Rail.

IMDG: International Maritime Dangerous Goods Code.

MARPOL: International Convention for the Prevention of Pollution from Ships.

CIQ: International Code of Chemotherapy.

ECHA: European Chemicals Agency for Chemical Substances and Mixtures.

TSCA: Toxic Substances Control Act Chemical Substance Inventory contains all existing chemical substances manufactured, processed, or imported into the United States.

GHS: Globally Harmonized System.
